An amusing, small dictionary of Vignola cherries. To taste culture, history and curiosities of tradition. A juicy, greedy, full of gifts fruit, known all over the world. But not everybody knows that...

## **FIVE**

This is the first volume of a new series, "five".

Five comes from an emotion, a passion told through images. Five bears many meanings, all of them different, like the books in this series, free from schemes.

Its postcard format recalls memories inside every one of us, the journey of every one of us.

# MODENA CULTURE

Works centred on local culture, on Modena territory: Modenese dialect is the protagonist of some volumes which tell nursery rhymes, proverbs, old sayings, poems, and of others which teach grammar and how to use dialect; and then typical Modenese products such as Vignola cherries, borlenghi; art and local artists or people.

## THE BLUE ANTEATER

Blue Anteaters belong to a very peculiar species, on the way to extinction  
greedy for books and extremely curious.  
Nobody can trick them and they are always looking for new tasty morsels to enjoy.
