

## The “Philatelic Bookshop” no.30

[www.PhilatelicBookshop.com](http://www.PhilatelicBookshop.com)

thousands of titles  
from all over the world

the catalogue specialized in philately and collecting  
all the books published by Vaccari  
and all those available by Vaccari

The “Philatelic Bookshop”, after **30 catalogues published**, is still an important reference: the wide offer remains unchanged with a weighty selection of titles from all over the world on collecting, postal history, air mail, maritime and military, Italy and foreign countries, catalogues, handbooks and dictionaries, new publications and the new editions of catalogues.

However, something has been changed: there is a new organisation of titles and above all a **new layout**, in order to present more and more clearly the thousands of books available. In the site, descriptions full of details, forewords, tables of contents and all the elements necessary to make the choice of the volumes of interest easier. To check new additions, just select “**new books**”.

The “**1x1**” sale section, with second hand, new, ancient and rare books, magazines, catalogues, special offers and low prices, presents many titles and it is regularly updated on-line.

For digital reading lovers, the catalogue can be browsed, just like a magazine, in the **free site Issuu** <http://issuu.com/vaccaristamps>, with no need of specific programs.

You can enlarge pages, skip them and search what you are looking for automatically, download the pdf file (a fast connection is necessary) and print what you wish. To download the file a subscription is needed, but it is free and easy to complete.

In Issuu it is also possible to browse the **“History Bookshop” no.5**, the catalogue specialized in history and military history, aviation, navy, uniforms, weapons and tanks, a showcase of contemporary history with several volumes which are difficult to be found in bookshops.

Again in Issuu, the analytical index of **“Vaccari Magazine”**, the prestigious six-monthly magazine of philately and postal history information, with the articles published from the first issue of 1989. A very useful bibliographic reference for scholars and lovers, divided by subject, author and magazine.

In part centred on the Nineteenth century, with really interesting and deep studies, “Vaccari Magazine” has become a “collection” item and back issues get incredible results at the auctions. At [www.vaccarimagazine.it](http://www.vaccarimagazine.it) all the available issues.

Issue 48 of the magazine is among the new publications signed Vaccari, together with two works more.

**“Dai moti carbonari a Ciro Menotti - 1820 - 1831”** is the reprint of the work by Ohnmeiss, the history of the sacrifice by the Hero of Italian Risorgimento told through original documents of the time, all of them reproduced.

**“Cilegiario”** is the first volume of a new series, “five”. It comes from an emotion, a passion told through images in postcard format. An amusing, small dictionary of Vignola cherries, a juicy, greedy, full of gifts fruit, known all over the world.

All the catalogues are weekly updated in Vaccari site **[www.libreriafilatelica.it](http://www.libreriafilatelica.it)** and only in the site it is possible to take advantage of the offers and discounts during the year.

The institutional site is the main showcase for products, but our **Facebook** page <http://www.facebook.com/VaccariFilatelia> gives you the possibility to see our events, the photographs of our activities, some collections exhibited, and much more.

Also **“Vaccari news - philately in real time”**, the daily web magazine, has kept up: at the bottom of every news, there is a further button to “post” the single article in the personal Facebook page.

“Vaccari news” often deals with books, catalogues, newspapers and magazines. It is really appreciated and it has received many awards; in September it has been recognised as the most important philatelic information web site by the members of the Italian “Club della filatelia d’oro”.

A web, different communication systems for any taste, but all of them with the same aim: a direct and close contact with collectors and lovers, even curious people, to share updated and precious information for a common passion.

# EMILIA EARTHQUAKE EMERGENCY

In 2010, Vaccari gave its support to Fondazione Francesca Rava - N.P.H. Italia Onlus for the earthquake in Haiti, and now for that in its own land.

In the month of August Fondazione Rava has started rebuilding 2 small homes for the Integrated Therapy Centre for children, "La Lucciola", in the province of Modena.

By September the small homes must be completed so that children can move away from the tents where they are holding their therapeutic and didactic activities at present.

**The project must be completed through a further effort. Please, help us!**

**Heartfelt thanks!**

The Integrated Therapy Centre for children "La Lucciola" is a rehabilitation structure which gives hospitality to 30 children and young people within the age of 3 and 18 with physical, mental and multiple handicaps: infantile cerebral paralysis, nervous diseases, Down's syndrome and other genetic syndromes, mental retardation, autistic spectrum disorders, disorders in learning and social development.

The activities are being held in the keeper's house and in the tents next to the vegetable gardens

The cracks in the walls caused by the earthquake have made the building completely condemned

**Fondazione Francesca Rava helps children in hard conditions through child sponsorships, projects, voluntary work, activities to awaken people to children's rights.**

**It is a non-profit organization recognised by the State, which believes in the efficient use of resources and in transparency: audited balance, management accounting.**

**It is independent from any political or confessional line-up; it realizes its projects thanks to donations and to the help of volunteers who donate their time and professional skills.**
