PREFACE

We celebrated 15 years!

In 1989 Vaccari srl Books created a service devoted to collecting and since then it has published many specialised works dealing with philately and postal history. Thanks to the authors and contributors, professionals and experts of the subjects, this year again, we have the possibility to offer as many as eight new volumes and some more are being prepared.

That's not all. As a reference point for many lovers and scholars of the subject, with the aim of spreading the philatelic and postal historical culture more and more, we have made many **new books** available. In "The Philatelic Bookshop" there are more than **180 new offers**, books and catalogues; in "1x1" two military history series have been enlarged, Mursia and Scarabeo, and in the sections for catalogues and philately and postal history another division has been created between Italy and foreign countries to make consultation easier; as many as 80 titles have been added in the "Free Books" part.

"The Philatelic Bookshop" is constantly updated at the site **www.vaccari.it** where under "Books" it is possible to find the descriptive table for all the titles available, thanks to an easy search system by category, title, author, key words. In "New Books" there are all the new proposals chosen to improve our offers.

To this end, we invite you to inform us about works dealing with subjects relevant to the many themes connected to philately and postal history. We will consider them for the inclusion in the catalogue.

Moreover, we invite you to send us a review copy for our on-line daily magazine, "Vaccari news - philately in real time", **www.vaccarinews.it**.

Among the many services offered by Vaccari news, in fact, there are also news about the new titles available with the description of the volume, the image of the cover, or the link to the descriptive table if the book has been included in the catalogue. Besides the indication of new books, Vaccari news, which started more than one year ago, deals not only with traditional philately, but also with postal history, thematics and specialisations beyond the postage stamp, such as postmarks, machine postmarks, postal stationery.
