Vaccari public auction, with 2,044 lots of covers and postage stamps of different type and period, space, philatelic literature from "Vito Salierno" library, has taken place in Vignola (Mo) on Saturday 12 April 2014, by the auction room of Vaccari srl, via M.Buonarroti 46.

Auctioneers Silvia Vaccari (literature) and Luca Lopez (philately and postal history). Mail offers were dealt with by Silvia Vaccari (literature) and by Paolo Vaccari (philately and postal history).

Among the several people in the auction room, people on the phone, and those who had sent their bids by e-mail, post, fax or through the site, a very high percentage of lots has had a buyer: 66% for philately, 73% for literature. Just a few hours after the auction, there are many requests for the unsold lots available at the starting price.

As to prices, sometimes collectors ask: "why that postage stamp whose catalogue (Sassone or Unificato) quotation is 1,200 euro, at the auction, even if of a good or excellent quality, was not sold, including commissions, for more than 480?" The reason is quite simple: the market (demands and offers), therefore also auction sales, fixes the price of that specific moment, whereas catalogues often include possible discounts applied to buyers.
