FOREWORD

Postage stamps and postal documents tell our story and the examples gathered in the present catalogue follow the history of Italy starting from Ancient states, passing through the Kingdom, and then arriving at the Republic.

Several postage stamps, single, in strips and blocks, unused and cancelled; and then letters, covers, letter fronts, newspapers, fragments, wrappers, letter jackets, circular letters.

It is a selection of 97 prestigious items, more or less rare, some of them unique or known in a few examples, uncommon combinations of franking, departure, destination and cancellation, some pieces more and more difficult to find, some bargains hardly repeatable.

Really unusual items, the result of nice findings during the years thanks to study and research, many of them not on the market for some time, some of them presented in the philately and postal history magazine "Vaccari Magazine" or in Vaccari catalogue, at national and international exhibitions, to enrich one's own collections or just to possess a small part of Italy.

All the items are reproduced, most of them real size, and some postage stamps have been enlarged in order to bring details out.

Descriptions, effected with the greatest care and clarity, both in Italian and English, stress their good points but also possible defects.

Besides expertise signatures and/or certificates, any example is accompanied by Vaccari expertise and guarantee certificate, so that anyone has the chance to make a safe and sure purchase.

What offered in the present catalogue is on sale. Prices, on demand, refer to the real market situation, which is far from concoctions produced by imagination and fantasy.

We wish you a profitable consultation, and we remain available for any information you might need.
