PHILATELY AND POSTAL HISTORY

In **Philately and Postal History**, among the 836 lots proposed, items for any kind of collection can be found, both of high and low value, also of very good general importance. They start from Preadhesive and arrive up to present days, with the Old Italian States, Risorgimento, the Italian Kingdom, Italian Social Republic and Republic, but also foreign countries, destinations and mail to Italy, that is "Incoming Mail", Italian Post offices abroad, colonies, occupations and military, air mail. The chapters with Various subjects and Lots and Collections may give great surprises.

Among Lots, a specific collection (824) of **military** relevant to the correspondences of the **Atlantic Base of Bordeaux**.

The section of Philately ends up with Lot 836, that gathers a really peculiar collection, very interesting for the study of Postal history, the **personal philatelic archive** of Professor **Vito Salierno**, left as it was on the basis of his criteria of ordering and/or cataloguing, a really magnificent and useful set for scholars or collectors of images only.
