

The “Philatelic Bookshop” no.33

thousands of titles
from all over the world

www.PhilatelicBookshop.com

**the catalogue specialized in philately and collecting
all the books published by Vaccari
and all those available by Vaccari**

The publication of the present “**Philatelic Bookshop**” no.33 has been slightly postponed to guarantee the presence of the many new books proposed now. Works about collecting, philatelic and not, postal history, air mail, maritime and military, Italy and foreign countries, catalogues, handbooks and dictionaries, the new editions of catalogues, the volumes published by Poste italiane, thousands of studies from all over the world, are present in it.

In the site, constantly updated in every part of it, many titles have been proposed immediately after their issue, or even the chance has been given to reserve one's purchase before the actual availability of the works, giving the opportunity to avail oneself of a campaign in progress with postage free of charge in Italy.

The site is an extremely flexible instrument that we suggest to visit regularly to be always informed about new arrivals (just select “new books” to check new insertions), but also because **in the site only**, during the year, you can find **special offers**, season sale, discounts and interesting proposals, announced in the site itself and communicated by e-mail to those who have provided us with their address.

Moreover, some sections are present in the site only since subject to periodical modifications just for their intrinsic feature.

“**Gift books**”, a gift for your purchases from the Bookshops, are constantly updated. There are always new books to choose among and what is proposed in this catalogue is the offer of the moment. Different titles are then cyclically inserted. Therefore, we suggest you to often visit this section, to create your own discount “ad hoc”. Just keep in mind to select your gift book at the moment of your order and it will be sent to you free.

In the site only there is the “**1x1**” sale section, devoted to second hand items and bargains, with new and second hand, ancient and rare books, magazines, catalogues, further to numerous curiosities. One copy only is almost always available by title; so... “first come, first satisfied!”

All the titles proposed in this catalogue are obviously introduced **on-line** too, in a clear and simple, but also exhaustive way, thanks to the extensive cards with detailed descriptions, introductions, tables of contents and all that can help in the choice of the volume. For every title you can find many pieces of information, and also the link to the review published in our daily web magazine “Vaccari news - philately in real time”, enriched by further ideas, connections, interviews with the authors, and much more.

In the “Philatelic Bookshop”, among **new books**, a work published by Vaccari is present too: “**AEROFILIA ITALIANA 1884-1920**. From the Pioneers of Aviation to the «Aces» of the Great War. CATALOGUE OF AVIATION POSTMARKS. Pioneering period, Italian-Turkish Conflict, First World War” (in Italian) with point valuations, by Fiorenzo Longhi, one of the main experts of this field, and author of numerous successful works. Next to the proper cataloguing, you can find a deep analysis of the military-historical situation for every period and hundreds of colour images.

As regards the “**History Bookshop**”, after the sale campaign for the closing of the proper catalogue, we have decided to keep and insert, together with the texts of the “Philatelic Bookshop”, some titles of military history particularly sought-after. This means a change, keeping a wide selection of the volumes by the three Italian General Staffs, Army, Navy and Air Force, thus offering a heritage of historical and military-historical information strictly connected to philately and postal history.

Following the same concept, other titles about history are proposed, of great interest and hard to be found in bookshops, and also the titles by Vaccari of the series “meeting History”, volumes richly illustrated that analyze specific historical themes, starting from the study of documents.

Among magazines, the six monthly “**Vaccari Magazine**”, a collector’s magazine, one of the most awarded of the field at international level, proposes, since 1989, important studies about philately, traditional and not. The analytical index with all the articles published (divided by subject, author and issue) can be found at <http://issuu.com/vaccaristamps>. It is a bibliographic instrument extremely appreciated by all scholars and collectors.

The digital version of this catalogue can be browsed at <http://issuu.com/vaccaristamps>.
