## **STAMP COLLECTING**

### **THE MOST WIDESPREAD HOBBY IN THE WORLD**

Stamp collecting has always been a common and widespread hobby since the time when the different states decided to change radically the postal services introducing the postage stamp as a way to be paid in advance.

#### **HOW TO COLLECT POSTAGE STAMPS**

There are many different possibilities and opportunities.

People who simply want to enjoy themselves have many occasions to find postage stamps. Indeed, there are special packets with thousands of copies, from Italy and the whole world, also divided by theme.

However, it is also possible to collect all the stamps, unused and/or cancelled, issued or to be issued by a single state. Moreover, the limitation can be determined by a period of time, for example the Kingdom of Italy or the ex Colonies and Occupations. This kind of collecting is more demanding from an economical point of view, but it has the advantage of giving the possibility to divide by period, by ruler or area and also of choosing among several categories, for example used or unused stamps with or without hinge, bearing different cancellations,...

The postage stamps of 1800 issued by the Italian States are also very interesting and can give many opportunities and much satisfaction.

#### **PHILATELY AS AN INVESTMENT**

Is it possible to get a profit? CERTAINLY

However, a distinction is necessary according to the different periods, categories and peculiarities of each collection.

In any case, investment should be considered in a medium and long period, as the best results will be obtained having the chance of waiting a long time.

Paolo Vaccari  
Chairman of b.o.d. Vaccari s.r.l.
