**30 Years of Publishing
a mix of tradition and innovation**

Only 5 years have passed since Valeria Vaccari retraced the company's history and her personal experience in the publishing sector by celebrating 25 years.

(www.vaccari.it/pdf/16765.file.2916_ING.pdf)

Edizioni Vaccari s.a.s. by Silvia and Valeria Vaccari was born on 30 June 1989, to develop their father's publishing activity already started within Studio filatelico Paolo Vaccari opened in 1977. In 1998, the two companies have merged in one.

A time frame in which so many things have happened and in which we have toasted for other anniversaries and achievements.

“Of course, times are different from then”, they explain. “Many factors have changed, starting with the previously unknown digitization. However, our effort is constant: always try to adapt to what customers want, without sacrificing quality. Quality understood in full: in the contents of the publications, obviously, but also in the more technical aspects, the productive ones. Because an interesting volume is better appreciated if it is presented as it should be”. “Another aspect that distinguishes us is the desire to always offer insights in new sectors, not sufficiently valued, or to favour, thanks to further studies, discoveries that integrate or even question what was believed. That’s the beauty of philately!”

“The distribution also continues, through the catalogue «Philatelic Library» -a reference point for years on the editorial productions of the sector-, of works on various aspects related to collecting published in Italy and abroad, because it is essential to know what is collected and is the object of one’s passion. A passion that we like to share by meeting people at trade meetings but also in merely cultural events or in other areas to introduce philately. Moreover, thanks to social media, it is possible to reach a wider audience and perhaps «new collectors will be born»”!

The two periodicals by Vaccari
30 and 15 years with LARGE GOLD medal

Remaining in the sector closely linked to books, two relevant anniversaries concern the two periodicals, the six-monthly “Vaccari Magazine” (30) and the daily web-magazine “Vaccari news” (15), for which a dedicated postcard was prepared. In conjunction with Veronafil on 23 November 2018, the international competition of philatelic literature “Italia 2018” was also held: both were awarded with the large gold medal!
