FOREWORD

A “smart” auction, only by mail and LIVE, therefore without being present in the room, and with a limited number of lots (470), thus “smart” in every sense. This type of auction is new for us, in the continuous goal of combining innovation and tradition.

New is the procedure for the auction, which will be held on Saturday 13 November, but behind closed doors. I will manage the offers received by correspondence on the previous days, and the auctioneer will proceed to the knocking down by receiving the further bids which will however only be LIVE or through telephone connection.

The deadline for registering remote offers and requests to participate via LIVE auction or telephone (sent by post, fax, e-mail or from the site) is **Friday 12 November**, at **5 p.m.** (local time).

As to the site, its new system gives the possibility to clearly view each part even from a smartphone and/or a tablet and consequently the sending of bids is very simple and fast.

The points that instead reflect our custom remain firm, important to exactly identify each lot and to be able to buy with confidence. In our terms of sale all the ways to participate are clearly and in detail indicated.

- Lots are **described** with care and clarity and reproductions are integral part of descriptions.
- Lots have **all** been **photographed** (some of them only partially), and all the images are in the catalogue in the site.
- The **digital version** of the hard-copy catalogue can be browsed and downloaded in a pdf file from the page devoted to the auction in our site (www.vaccari.it/filatelista/asta).
- All the lots are available for **viewing** by our premises, **upon appointment**, from Monday 4 October to Thursday 11 November.

- The lots with my initials or signature, regardless of whether they come with or without an expert certificate, are absolutely guaranteed with reference to their description and, **among them, those with a value higher than 500.00 euro come with a Vaccari S.r.l. certificate of guarantee free of charge.**
- At Vaccari auctions, **no commission is applied to buyers' return prices** (generally 20/22%).
- Once the auction is over, you will find the list of auction **returns** and possible lots **unsold**, available at the starting price until 13 December.

Despite the small quantity, there are many noteworthy or peculiar "pieces". I again suggest you browse the catalogue or search for what is of interest to you; anyway, our daily web magazine **Vaccari news** (www.vaccarinews.it) and our **social** pages (facebook, linkedin, twitter, instagram), the institutional one VaccariFilatelia and the on-line VaccariShop, will point out some of the lots.

Most of those reproduced on the hard-copy catalogue cover belong to the Old Italian States section.

From the Duchy of Modena, one letter fragment (lot 65) franked with c.40 carmine of Sardinia with grid cancellation with boxed "Zocca" alongside, both in green azure. It is a really rare evidence of c.40 cancelled in Zocca with this kind of cancellation: the grid postmark was used, in Modena post office, only from 26.6.1852 to 13.7.1852; it was substituted by another type since it cancelled the postage stamps too lightly. When the post office in Zocca was opened (1.1.1859), besides the nominal postmark and that for registered letters, they received the grid one; in Modena they always used black ink, while in Zocca the few impressions known are in green azure.

For Naples, during Farini Regency period, one really fresh and well preserved pair (lot 76) of t.1/2 deep blue "Crocetta" with line cancellation "Annullato" (introduced in February 1861). In the pair, the first example is with wavy lines watermark, while the second one is without watermark and it has one margin short at top on the right. The printed matter wrapper (lot 95) from Naples to Durham (Great Britain) of 14.2.1862 is franked up to destination for a first postage rate with Naples Provinces gr.1/2 greyish brown + gr.2 blue. The small circle cancellation "Napoli al Porto 14 Feb. 62" has a "P.D." alongside. On arrival, the first address was crossed out and it was forwarded to York with p.1 red (perforated 14) cancelled with Sunderland numeral "761". It is a really rare combination.

Then we have the Provisional Government of Parma, with c.80 olive bistre (lot 104) with a quite invisible hinge.

Some examples for the Papal State: b.50 blue (lot 109) and b.50 dark ultramarine (lot 110) (print of 1864 defective because of cliché rust), both unused with original gum with hinge; c.3/1868 rose grey (lot 130), unused with original gum without hinge.

From Sardinia, c.40 lilac rose of the IV issue (lot 170) with invisible trace of hinge.

From Sicily, gr.1 I plate I state paper of Naples rust brown (lot 199), unused without gum, with retouch n.R14, and gr.50 lake brown (position 52) (lot 211) with good margins and with part of the lower example with double impression really evident (pos.62); the horse-shoe cancellation is well centred.

And from Tuscany, cr.60 deep scarlet on greyish paper (lot 224), with 3 very good margins and 1 perfect at top, with light cancellation "P.D." It is in very good condition and freshness.

As to foreign countries, an example is the letter (lot 401) from San Marino to Faenza with Sardinia c.5 green + c.10 bistre with boxed cancellation "S.Marino" + small circle "Rimini 10 Set. 63" repeated alongside, and, on the back, "Faenza 10 Set. 63" on arrival.

About the other categories, in the Kingdom of Italy there is a section devoted to Florence as a capital city, and then R.S.I. and Regency, the Italian Republic,...

I leave it to you to find out what this catalogue number 99 proposes and I hope you will find what you are looking for.
