

The Philatelic Bookshop no.40

www.PhilatelicBookshop.com

**the catalogue specialized in philately
all the books published by Vaccari
and all those available by Vaccari
from all over the world**

I begin with a good thing: here we are at **number 40** of this catalogue, a point of pride that we carry forward with passion, a point of reference for years on specialized publishing productions with a selection of volumes available in our “Philatelic Bookshop”, complete on the site, that is new publications and “must haves” to support our collections with knowledge.

Among the novelties, the latest issue of the philatelic and postal historical information six-monthly “**Vaccari Magazine**”, 68, which will be the last by the will of my dad, creator and director of the magazine, following his sudden death. It is a special issue with 144 pages, expanded to accommodate everything that had already come down to us, and with a memory dedicated to him.

As usual, it will be possible to renew the subscription to receive the two issues of 2022 at the discounted price until the end of January 2023; as a novelty, the 10% discount reserved for subscribers on purchases from our bookstores will be extended throughout 2023. Take advantage of it!

Sore point: due to the succession of increases, not only for shipments, we have been forced to adjust our prices in relation to shipping costs. However, we have sought a middle ground so as not to burden our customers further.

But let's get to the catalogue itself, which maintains the same concept adopted in the last editions.

Leafing through the **paper** one we can find:

- a showcase of bargains, that is some titles at a discount or at really advantageous prices;
 - presented in a simple and clear way with essential data and covers, the major books published in the last year, those deemed of greatest interest or necessary as basic texts, divided by main category (some titles touch on several subjects);
 - a selection of "Gift Books", that is the titles that can be chosen as a gift based on the purchases made.
- The **digital** version of this catalogue can be browsed or downloaded in pdf from our page within the on-line catalogue.

The **site** hosts a decidedly greater number of titles in all sections, with detailed descriptions, in-depth descriptions, indexes, sometimes presentations or links to the review on "Vaccari news". It also offers the possibility of constant updates of new publications or actual availability.

Only on the site, there are also periodic discount campaigns and special offers, and the "1x1" sale with magazines or books, used or new in single copy.

Using the search function then it becomes very easy to find what you want.

If you wish to be always informed on all updates, offers and news, just register for our "**Mailing list**", or follow our **social** pages, including "**VaccariShop**" on-line, where items of postal history, postage stamps, books are presented every day.

I conclude on a personal note.

Dad's sudden loss in October created a giant landslide not only in my heart. We have received hundreds of condolence messages that show us the closeness and affection of those who have been following us for a long time.

I would like to thank everyone with a virtual hug.

As my dad would have said: keep your head down and look to the future only in a positive way.
