THE HISTORY BOOKSHOP

www.libreriastorica.com

Although there were already many historical volumes or military history books available, the categories in the new September edition of the catalogue have undergone some re-organising in order to bring more prominence to this section and make research easier amongst the many new titles selected.

With this catalogue Vaccari srl offers a panoramic view of over 400 titles that cover two centuries of history and military history, strengthening the activity of philately, postal history and philatelic literature.

Moments of our history: great conflicts, conquests and defeats, expectations and hopes, diaries, treatises, historical documents and images. . . They are pages of life and war experience, passion and courage which are told by the characters with bravery and spontaneity.

The "History Bookshop" starts with a sweeping view of the XIX century with texts on the Ancient Italian States, Reign of Napoleon, Risorgimento and Garibaldi. The XX century is then brought to light by discussing all the main aspects of the times. There are two great sections on the World Wars, fascism and Mussolini, as well as the relationship with Germany, the campaigns in Africa, Greece, Albania and Russia, the Italian Social Republic, the Italian resistance movement, the prisoner and concentration camps, the Shoah, aviation and navy, the weapons and tanks used, the corps, uniforms and military badges, the fortifications and coastal defences.

Of particular interest, there are also volumes on the Question of Trieste, the policies regarding Yugoslavia and the Balkans, the missions of Italians abroad and Colonialism, with studies based on various documents and archival sources, with particular attention to the operations in Ethiopia.

A new section dedicated to the stories in the sea has been added: it includes some volumes which contain information on the adventures of pirates and privateers as well as life on board these sailing ships.

Many historical and military-historical collections by some great Italian publishers: Laterza; Lo Scarabeo; Mursia with the series "Testimonianze fra cronaca e storia" give an account of the years during the First World War up to the Second Republic, which has directly been gathered from the experiences of the protagonists; Ritter. Without forgetting the historical office of the Army General Staff: with their own specialized publications, they are the ideal reference source concerning the corps, weapons, transport and uniforms being a unique witness to the experiences of Italian soldiers for more than a century and a half of national history.

The list of publishers we distribute continues with: Ermanno Albertelli, Giorgio Apostolo, Gaspari, Bruno Ghigi, Libreria Goriziana, Grange Books with the Military Mini Series, Itinera Progetti, Piero Lacaita, Grafica MA.RO, Mattioli 1885, Libreria Militare, Nordpress, Nova Charta, Editoriale Olimpia, Re Enzo, Temi Editrice, Widerholdt Frères. Not to be forgotten are some works by authors, often unknown, who with a unique title have left a permanent mark of their own experiences of military life, sufferings or prison.

In the PUBLISHING section of the site a new showcase area has been added under the name "History Bookshop" which allows access to the complete catalogue, divided into the main categories.

Updates to the site will be highlighted monthly at www.libreriastorica.com; the hard copy will be updated yearly.

MEETING HISTORY

<http://www.vaccari.it/editoria/miv/index.php?SetLanguage=en>

For some time the “History through documents” series has continued following a particular guideline: to analyse, through the study of documents and postal history, events or historical topics in an accurate and detailed way thus often revealing details that otherwise would not be easily identifiable.

Within this series, the section “**Meeting History**” has been created, which expands on specific historical topics, with a mostly narrative approach, and is always based on the analysis of documents. The series has been introduced with Fabio Bonacina’s study, “La salma nascosta - Mussolini dopo Piazzale Loreto da Cerro Maggiore a Predappio (1946-1957)”, 50 years after Mussolini’s body was returned to his family, followed by the volume by Ricciotti Garibaldi, “La camicia rossa nella guerra balcanica campagna in Epiro 1912”, on the occasion of the bicentenary of the birth of the author’s father, Giuseppe Garibaldi. More titles will be added.
