THE NEW CATALOGUE 2011

The net price sale in this new catalogue has been divided in some sections.

The first one is an **abstract of the specialized catalogue Vaccari 2011-2012**, historical study and catalogue with valuations. In the present catalogue, the most common types of postage stamps of the **Italian States and Kingdom of Italy up to 1900** for each issue are listed and offered on sale.

In catalogue Vaccari 2011-2012 there are all the types (unused with full gum, unused with trace of hinge, unused without gum, cancelled, used on cover on their own, used on cover not on their own, strips, blocks), essays and printing proofs, mixed franking, varieties, forgeries of the time.

1850-1900

The second section offers the postage stamps of **Kingdom of Italy from 1900, R.S.I., Regency, Foreign occupations, Italian offices abroad, Republic of Italy**.

There are also the parts devoted to **mixed postage stamps** to discover the world through stamps, a real mine full of landscapes, monuments, personalities, history, geography, art and culture from all over the world to collect and catalogue following one's own taste in order to build up one or more personalized collections; then, the **accessories for collecting**, to make one's collection more valuable, to arrange it with sheets, pockets, folders, albums, files, even personalized.

What has not been included in the present edition are the usual pages with single lots, classics and rarities offered at net price, which are now being updated in the site www.vaccari.it.

This change follows the demands of clients, who make use of the web more frequently; therefore, they are less interested in the paper catalogue. Nonetheless, the "old style" catalogue maintains its value, and it will remain available for everybody.

Besides the postage stamps, unused and used, of the traditional section "**Classics and Rarities**", in the **SITE www.philately-vaccari.com** it is possible to find regularly updated **promotional sales** of Italian and foreign postage stamps at low prices, the list of **Italian States, Kingdom and Republic, Italian Colonies**.

Vaccari net price sale includes the new on-line shop of **POSTAL HISTORY**, at interesting prices for collectors: letters, covers, fragments and cancellations, from the Italian States to the Republic of Italy, with a wide choice of Kingdom of Italy, Occupations, Military post and Italian colonies.

As far as **PRICES** are concerned, Vaccari has always based its commercial policy on real **MARKET** prices, and this is a line which will not be changed.
