FOREWORD

Catalogue no.82 presents the 3,588 lots knocked down at the 2 days auction of Friday (afternoon), 19 April and Saturday, 20 April 2013. Among the 1,790 lots of Philately and Postal History, the section devoted to Air Mail, Zeppelin, Rocket and Space (227) is knocked down for the first time on Friday afternoon, preceded by the 1,597 lots of Postcards and the 201 of Philatelic Literature and History of Aviation.

There are some focal points that I believe to be particularly important, so that everybody has the chance to make a safe and sure purchase.

The descriptions of the lots are effected with the greatest care; they are clear and plain without any vague or ambiguous sentences. All lots that have my signature on them, regardless of whether they come with or without an expert certificate, will all be absolutely guaranteed to match their description, and among them those with a value higher than 500.00 euro will come with a Vaccari S.r.l. certificate of guarantee free of charge.

The reproduction is integral part of the description. Having the chance to see almost all lots reproduced in this catalogue and in the web site is very important to all those who do not have the opportunity to preview personally the lots of their own interest (at Milanofil too this year).

Huge is the variety of the material offered, whose starting prices are particularly interesting. Moreover, we do not apply any commission to purchases made at our auctions (usually 20%).

The first lots to be knocked down are Literature ones (201), followed by Postcards (1,597). Only literature and postcard lots requested by those present at the auction will be auctioned off. Then the section devoted to Philately and Postal History (1,790), starting from Air Mail (227 lots in English too in the web site) on Friday afternoon.

As far as Literature is concerned, as usual we propose a selection of titles which are sold-out or hard-to-find to enrich one’s philatelic library, besides a small overview of History of Aviation.

Our fifth auction of Postcards starts with an offer of Regionalism (mainly villages and small towns) and Railways of over 1,000 on a total of 1,597 crossing all the present 110 Italian provinces. To follow, Aviation and the related section with Photographs, Documents and Miscellanea, of great interest as usual, and Military with a wide section devoted to Italian Alpini stand out among the various categories presented, as already in the past.

The part devoted to Air, Zeppelin, and Rocket mail proposes an interesting historic overview of both Italian and foreign Aviation. Space, chiefly devoted to USSR/RUSSIA, starts with a wonderful collection of Soviet cosmonautics.

In Philately and Postal History, particularly significant and interesting lots can be found. Especially considerable is the part devoted to Destinations (in English too in the web site), including “Incoming Mail”.

VACCARI s.r.l.
Filatelia - Editoria
The charity initiative, characteristic of Vaccari auctions, this year is addressed to the earthquake that has harshly damaged Emilia on 20 and 29 May 2012.
For the present auction, two lots have been chosen: a complete series of Sicily stamps of 1859 (lot 388) and a triptych State Service of the North Atlantic Cruise (Air mail, Italy 1933 - lot 1311 knocked down on Friday afternoon). The return is assigned to the Association “Tutti Insieme a Rovereto e S.Antonio Onlus”, active in the reconstruction of one of the most damaged sites.

Available on our website http://www.vaccari.it, in the page devoted to the auction, it is possible to easily search the lots, see them reproduced, send bids and finally consult (once the auction is over) a list of unsold lots available for purchase, and the auction returns.
Our auction is present in the international site Delcampe too http://www.delcampe.net, in the section Prestige.
In the free site Issuu http://issuu.com/vaccaristamps, the catalogue can be browsed and it is possible to make surveys inside it, to enlarge single parts, to download the pdf file, to print single pages.

Our previous auction occurred inside our 35th year of activity; we celebrate two Anniversaries this year: the 25th of our six-monthly “Vaccari Magazine” and the 10th of our first news appeared in our daily web magazine “Vaccari news - Philately in real time”.
